# Facade Partition

Architectural product collection

WE DON’T JUST BUILD METAL. WE BUILD LANDMARKS.

AI-generated concept imagery. Product suitability and final details are confirmed for each project.

# The product range

## Facades

01 Decorative Metal Facade

02 Expanded Metal Mesh

03 Louvered Fin Facade

04 Mashrabiya Facade

05 3D Folded Facade

06 Woven Mesh Facade

07 Corten Steel Facade

08 Sculptural / Metal Facade

09 Ornamental Facade

10 Geometrical Facade

## Glass Partitions

01 Demountable Partition

02 Frameless Glass Balcony Partition

03 Shower Glass Partition

04 Metal Mesh Glass Partition

05 Sliding / Folding Partition

06 Back Painted Glass Panel

# Material, finish & detail

## 01 / Material direction

Consider stainless steel, aluminium and glass interfaces against the architectural brief, exposure and adjacent surfaces.

## 02 / Surface character

Explore brushed, polished or project-specific coated finishes. Review samples in the intended lighting before selecting the final direction.

## 03 / Interfaces & coordination

Resolve supports, corners, terminations and junctions with the project team. Structural and safety requirements need project-specific engineering review.

# Start with your project.

Share drawings, the preferred product system, material direction and project location. We will review the brief with you and identify the next development steps.

## 01 / Brief

Architectural intent, drawings and setting.

## 02 / Develop

Product, finish and junction direction.

## 03 / Coordinate

Project review before fabrication.
